EDUCATION

B.Tech (ECE) , KIET Group Of Institutions, Ghaziabad	July 2023
Dr. A.P.J. Abdul Kalam Technical University, Lucknow, U.P.	CGPA: 8.37
Senior Secondary , Central Board of Secondary Education, Delhi	July 2018
PCM	Percentage: 85.6

SKILLS

Technical Languages	Java, Python, C++/C, JavaScript, TypeScript
Frameworks & Library	Springboot, ReactJs, NodeJs, ExpressJs, NextJs Cloud
Cloud & Databases	Amazon EC2, S3, DynamoDB, MongoDB, MySQL, Docker, Kubernetes

EXPERIENCE

Software Development Engineer	June 2024 - Present
Yatra Online Limited	Gurgaon, Haryana, IN

- Working as Software Engineer at Yatra Flights, primarily Tech Stack- Java, Springboot.

Full Stack Developer	July 2023 - May 2024
StampMyVisa	Bengaluru, Karnataka, IN

- Led React-based frontend development for B2B product, achieving an 8x increase in user engagement and improved user satisfaction by 25%.
- Implemented responsive design, reducing bounce rates by 15x and increasing mobile user retention by 30%.

Solution Engineer	Jul 2022 - Jul 2023
CRED Pay	Bengaluru, Karnataka, IN

- Developed an internal onboarding app for CRED pay merchants, resulting in a 45% increase in merchant adoption and a 20% improvement in E2E testing efficiency. Utilized Springboot, Amazon S3, EC2, Docker, React Native.
- Automated onboarding and legal processes with Python, achieving a 90x efficiency increase, reducing costs by 60x, and processing 200+ new merchants per month. Collaborated with product and business teams to streamline workflows and improve app functionality.

PROJECTS

Restaurant Mobile app Developed a React and Springboot-based app to streamline order management, resulting in a 20% increase in order processing speed. Utilized DynamoDB for efficient data storage. ([View Project](#))

Creating Trails Led the development of a React Native and Springboot app that enabled users to plan itineraries. The app reduced time spent on planning by 40% for users. ([View Project](#))

SEO Platform Built a MERN stack platform that helped 50+ developers and startups optimize their websites, resulting in a 30% increase in SEO performance. ([View Project](#))

Digitally Inclined Ecom Developed and hosted a MERN stack platform for selling NFTs and online goods. Implemented efficient code optimization and utilized serverless architecture, resulting in estimated cost savings of 30% on cloud hosting fees. ([View Project](#))

ACHIEVEMENTS

- 5-star rating (1926*) on Codechef.
- Ranked 2nd in college on GFG; solved 700+ problems on GFG and 600+ on LeetCode.
- Scored 1st Position in E-Summit at Inmantec Ghaziabad and 2nd Position in E-Summit at DJSCE, Mumbai.
- Winner in Hackstack'22 (Hackathon) and Runner up in Code Heist organized by YHills

VOLUNTEER EXPERIENCE

- Web Development Mentor, INNOGEEKS KIET: Mentored students in React, Spring, Java, Node, and MySQL.
- Member at Innovation Center Club at IC KIET. Represented the club at various Business Plan Competitions.
